

SIDDHABHOOMI INTERNATIONAL SCHOOL, SIDHI

HINDI LANGUAGE CLUB

The Hindi club is formed to work for the progress of Hindi language, to create interest in the student for the language and to encourage their creativity in oral and writing skills. This club provided opportunities for the interaction between the learner and the teacher which is vital for making learning of the language easier and enjoyable. Culture is summation of all the experience the human race gathered over the past centuries. At present phase of human civilization a majority of younger generation relates the word "culture" with anything obsolete, worn out and perhaps a symbol of boredom. The younger masses tend to forget that we all are an integral part of this culture and heritage, which India possesses in abundance.
